To Whom it May Concern:

As a follow up on the closing of our transaction at the apartment building, and to let you know that this was one of our easiest transactions ever. I wanted to thank you for all of your hard work and, most importantly, for bring us this deal. I know that we were able to close this transaction fast and that was appealing to you and your seller .

When I first met you years ago, I observed your honest and fair approach, I knew that I have found the right agent. Later in the process, and thanks to your problem solving skills, we managed to overcome every issue, and closed the transaction smoothly.

Your professionalism and knowledge help us move quickly. A lot of people say they can close a deal in a matter of days, but when it comes down to it most people can't actually close . Together we were able to meet our timelines and produce results!

You represented my partners and I with determination & professionalism, and closed the transaction smoothly. Meir was instrumental in presenting information and assistance. Meir helped us every step of the way. The process was very exciting. I strongly recommend Meir.

If you ever have a seller who needs a reference please do not hesitate to have them contact us. In our business, we are judged on our word and are results. You have been honest and straightforword and have created results. We look forward to working with you again .

Warmly,

David Akaks
