Dear Meir:

It has been a while since the closing of the above property but it is never too late to recognize a job well done .

Purchasing the above property, as my first commercial real estate investment in Los Angeles, was an important first step for me. My objective was to start with a property that met my criteria at an affordable price. I also wanted to find an agent that I could respect and trust, so that I could build a lasting relationship for all my future investments .

When I first met you as the seller's agent, observed your calm, fair, and honest approach, I knew that I have found the right agent even if the property was not right. Later in the process, and thanks to your problem solving skills, we managed to overcome every issue, large and small, and close on this wonderful property .

Please accept this letter as my sincere thanks for all your support. I am certain that the seller is equally happy with your performance as this truly was a win/win deal.

As I have verbally indicated to you, I will be using your services in my continued investments, and will have no hesitation in recommending you to others .

Sincerely,

Michael Lavaee
