To Whom It May Concern:

It is with great pleasure I am writing this regarding the work and efforts of Meir Frydman. Meir represented me in the sale of my property located in North ridge.

You listed my apartment at a price well above market and had multiple qualified buyers for me at full price by the next week. You made promises and sincere assurances that you were able to keep. everything went smoothly.

Meir was able to not only close a very difficult transaction, but also bring together multiple selling parties and move the transaction along very smooth and easily. Through his aggressive marketing, Meir was able to generate multiple offers on the site, and ultimately deliver an offer that was superior not only in pricing, but the terms as well.

Meir was able to structure an offer with a five day due-diligence period and a ten day close, which in today's marketplace is not common.

Meir exemplified the utmost in professionalism and expertise as he made the sales process one that was easy and enjoyable. He handled the process from start to finish, and was extremely knowledgeable, hard working, and diligent throughout the process. He kept us well informed throughout the process, and his hard work was what untimely closed this transaction .

I give Meir the highest of recommendations.

Sincerely,
Jack Schuler
